Overview

We are delighted to present this proposal from Alira Health to University of Ferrara for the following activity:

Post Hoc Analyses

Budget Summary

We will provide a Post Hoc Analyses to University of Ferrara, providing expert consulting through a cost-conscious approach. University of Ferrara will be invoiced monthly for hours used.

The table below summarizes Alira Health consulting rates on an hourly basis and the total estimated consultancy amount.

ICS Life	
Task	Price (EUR)
<i>Post Hoc Analyses</i>	38,500
<i>Junior Statistician</i>	125
<i>Senior Statistician</i>	150
<i>Principal Statistician</i>	175
<i>Junior Statistical Programmer</i>	110
<i>Senior Statistical Programmer</i>	125
<i>Senior Statistical Consultant</i>	200
<i>Principal SAS Programmer</i>	155

The total consultancy amount will not exceed the amount shown in the budget table above without prior written agreement between University of Ferrara and Alira Health.

Payment Schedule

Activities which are expressed as an estimated budget value (i.e. not based on a number of deliverables) are by nature those for which the effort cannot be estimated in a precise enough manner in advance. For those, University of Ferrara will be charged only for hours worked, and case additional hours are needed to complete the task, University of Ferrara will be informed as soon as possible and the budget will be amended accordingly, otherwise the activities will be paused.

Terms and Conditions

This proposal is based on the information provided in your request for proposal, received 31-July-2024 along with subsequent information provided via email and/or teleconferences.

Deliverables

Unless otherwise stated, all work will be performed according to Alira Health SOPs and working instructions. Unless otherwise stated, all documents and deliverables will consist of two (2) draft versions and one (1) final version. Additional review cycles will be charged appropriately.

Tax

All costs are quoted exclusive of any taxes that may apply. For the avoidance of doubt, all amounts are those which must be the final amount received by Alira Health after the application or deduction of any taxes, tariffs or levies, howsoever those may be applied by the appropriate authorities.

Scope of Work

Change orders will be raised in the event that the scope of work and/or project specifications and related assumptions are changed. This includes additional meetings or teleconferences beyond those included in the budget.

Foreign Exchange

The budget is built up based on business costs incurred in a number of different currencies according to where the work is to be carried out.

Alira Health uses the rates published on the first working day of each month at www.oanda.com.

In the event that the relevant currencies move by more than 5% in any one quarter, Alira Health reserves the right to re-value the budget based on the latest rates.

Pass-through Costs

No Pass-through costs are foreseen for this project. If Alira Health is requested in writing by University of Ferrara to incur any additional costs in performing activities, such costs will be reimbursed to Alira Health monthly by University of Ferrara.
